

# JD: Angular/React Developers

LOCATION: BALEWADI, PUNE

Email: [Jobs@Sarvaha.Com](mailto:Jobs@Sarvaha.Com)

Sarvaha is looking for front-end developers based in Pune with professional experience. You will be responsible for software development, unit testing and working closely with globally distributed (US, China, Europe & India) teams.

Expectations for the role are to build innovative and high quality AngularJS or React based front end and eventually evolve into a full-stack developer. This is a hands-on position that would require you to design and code.

We have multiple open positions of software engineers, lead engineers and architects.

## Key Responsibilities

- Work as developer for creating AngularJS/React based responsive web applications
- Contribute in scoping, estimating and proposing of technical solutions & development
- Integrate with backend Node.js or Java applications using REST services
- Write unit & integration tests, contribute to CI/CD pipeline.

## Skills Required

- BE/BTech/MTech (CS/IT or MCA), with emphasis in Software Engineering is highly preferable
- 1-12 years of total experience delivering Angular/React based applications
- Proficient in consuming RESTful micro-services
- Fluent with web application development in AngularJS/React, HTML, TypeScript, and CSS.
- Proficient understanding of client-side scripting and JavaScript frameworks
- Excellent verbal and written communication
- An attitude of constant learning of new skills

## Position Benefits

- Top-notch remuneration
- Work with highly skilled developers and architects
- Excellent, no-nonsense work environment with the very best people to work with
- Highly challenging and cutting edge work
- Exposure to Full Stack application development
